EMERGENCY PREPAREDNESS FACT SHEET

This facility has developed an Emergency Preparedness plan in conjunction with local emergency planning personnel. Below is information which you may find useful in the event of an emergency, disaster or incident. If you have further questions regarding our Emergency Preparedness plan, please contact the facility Administrator for more information.

Our plan has been developed in conjunction with local emergency planning personnel. Our plan includes local, state and federal resources as well as resources from within the Medicalodges Inc. organization.

Our plan is reviewed annually and includes the training of staff and the completion of emergency drills for a variety of potential emergency or disaster situations.

When possible, residents and staff will shelter in place, meaning residents will not be evacuated to another location. Our ability to shelter in place depends on many variables such as the integrity of the physical structure, access to food, water and medical supplies and the ability to maintain safe indoor temperatures.

Some types of emergencies, disasters or incidents may require evacuation of our facility. Near the time of the evacuation, staff will make attempts to notify you of the evacuation location and if known, the expected length of evacuation. When possible, residents may opt to go home with their representative, family or friends. We will maintain information on where all residents were evacuated to. Our primary evacuation sites are:

	Location	Address	Phone	Primary Contact
Evacuation Site 1.	Medicalodges Pittsburg	2520 S Rouse St	6202310300	Tonya Johnson
Evacuation Site 2.	Medicalodges Girard	511 N Western Ave	6207248288	Karen Brown
Evacuation Site 3.	TBA			

[During an emergency, disaster or incident affecting our facility, information may be obtained by calling our organization hotline at 1-800-782-0120, by accessing our website at \[www.medicalodges.com\]\(http://www.medicalodges.com\) or by accessing the organization FaceBook by searching @medicalodges. You may also tune in to local TV and radio stations for information.](#)
